Saket - 110029

ABOUT US

We at Premier Infra Services Pvt. Ltd. share a common vision and commitment to delivering exceptional "Civil Construction & Engineering" solutions at competitive prices. Our customer-centric approach ensures that we cater to both stated and implied needs, driven by our core values. As a leading professional and multifaceted Turnkey Engineering Organization in India, the Premier Group offers a distinctive array of services that prioritize Customer Focus, Quality, Safety, Technology, Innovation, Motivation, and Professional Competence. Our ultimate goal is to surpass customer expectations through continuous improvement, achieved by effectively implementing our Quality Management System and maintaining rigorous control over all internal processes.

OUR GOAL

Through invaluable acquaintance we intend to achieve the following objectives-

- To deliver projects as per completion target.
- To complete projects as per customer satisfaction.
- Be specific to the customer needs.
- To resolve customer complaints within required working days.
- Ensuring highest quality & safety standards.

SERVICES

- ERECTION
- FABRICATION
- DESIGNING
- TRADING
- HIRING/RENTING
- TRANSPORTATION
- CONSTRUCTION OF BRIDGES (EPC & BOQ CONTRACTS)
- CONSTRUCTION OF ROADS (EPC & BOQ CONTRACTS)

With a robust network of nationwide associated offices and an exclusive workforce, we possess the technical expertise and specialized resources to deliver exceptional results. Our team comprises technically skilled, trained, and experienced personnel who are always ready to provide top-notch services.

Our comprehensive service portfolio includes:

- Designing, fabrication, and erection of steel and concrete structures
- Construction of steel/PSC bridges
- Transportation and erection of I/U beam girders using in-house equipment and manpower, including heavy hydraulic cranes and axel trailers

By leveraging technical and operational innovations, we set new standards for service excellence. We develop tailored solutions for every construction project, encompassing site planning, smooth assembly of equipment, and workforce mobilization.

Our extensive resources include:

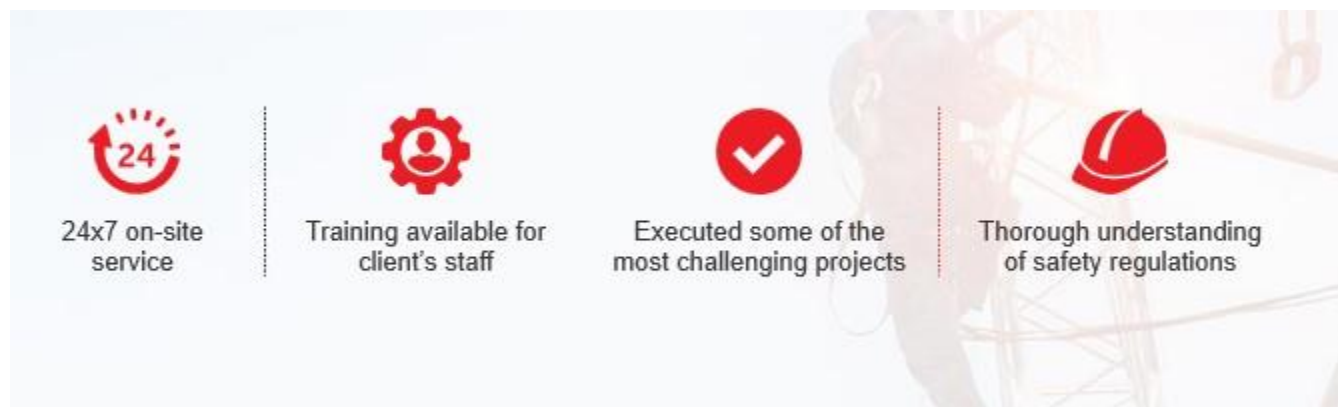

- A diverse range of cranes
- In-house design cell development
- Specialized components
- Expert personnel ensuring efficient and reliable project execution

Additionally, we offer various construction equipment on a hire basis, including:

- Tower cranes with varying capacities
- Boom lift platforms

To ensure timely delivery, we maintain a fleet of horses and axel trailers in different configurations.

OUR STRENGTHS

TUNNEL BORING MACHINE ASSEMBLY

Having achieved distinguished merit of been chosen the only Indian company to support with assembly of Tunnel Boring Machines for one of our clients in Delhi Metro, in Phase II, our team got a firsthand experience in working with professionals in China & India.

SAFETY

At our organization, we prioritize the well-being and safety of our employees and stakeholders by adhering to the ISO 18001:2007 Occupational Health and Safety Management System (OH&S) procedures. By embracing these internationally recognized standards, we integrate robust safety measures into our operations, ensuring the protection of our workforce and the successful execution of our projects.

Our commitment to safety is ongoing, with regular reviews and assessments of our working systems to identify and mitigate potential health and safety risks. This proactive approach enables us to maintain a safe and reliable work environment, making us a trusted partner for our clients and stakeholders.

By prioritizing occupational health and safety, we demonstrate our dedication to responsible business practices, employee welfare, and operational excellence.

QUALITY

Our company takes pride in being an ISO 9001:2008 certified organization, adhering to the internationally recognized Quality Management System Standard. This certification enables us to maintain a robust quality framework, ensuring that our operations and applications consistently meet the highest standards.

To achieve this, we have established and documented clear quality policy objectives, which serve as a guiding framework for our organization. These objectives are communicated to and thoroughly understood by our employees, empowering them to contribute to the effective implementation of our quality management system.

By instilling a culture of quality excellence throughout our organization, we ensure that our systems and processes operate at optimal levels, driving continuous improvement and customer satisfaction.
